## PROFILE

- I'm a software engineer who constantly tries to seek out innovative solutions to everyday problems. I'm always up for coming out with some solution to problems that can help society.
- Apart from software development, web development technology has always been a part of my interest, and a constant urge to be updated with new computer technologies.
- I love to explore things & love to explain them. I'm always passionate about giving more to my community, and sharing knowledge has always motivated me.
- I'm currently trying to learn various technologies, and will definitely master them one day.

## EMPLOYMENT HISTORY

### Associate Engineer at MOBIO SOLUTIONS

March 2022 — Present

Worked with 2 client projects as a backend developer. Participated in code reviews and contributed to the improvement. Worked closely with clients and stakeholders to gather requirements, provide technical guidance. Utilized testing frameworks thorough testing to identify and fix software defects, ensuring the delivery of high-quality, bug-free applications. Developed and maintained robust server-side applications using Node.js, ensuring high performance, responsiveness, and scalability.
